

School-start letter

A template to introduce your child and the supports that help them.

Starting school

Choosing a kind setting and building an alliance with the school.

What to look for when choosing

- ✓ Warm, respectful treatment of children and families.
- ✓ Groups that are not overcrowded and enough adults to accompany.
- ✓ Openness to adaptations and to frequent communication.
- ✓ Predictable routines and spaces that do not over-stimulate.

School-family alliance

1. Share what works at home: interests, soothers, signs of tiredness.
2. Agree on a simple communication channel (notebook, short messages).
3. Set a follow-up meeting a few weeks in.

Simple adaptations

- Preview changes with pictures or short notices.
- A calm-down corner for self-regulation.
- Short instructions and one thing at a time.
- A flexible settling-in period at the start.
